

## AIMS OF THE SYMPOSIUM

EHTI'08 is the first Finnish symposium on the research of emotions in the context of human-technology interaction. Interest and attention to this field has been growing steadily during the recent years, also in Finland. The purpose of this event is to gather researchers and introduce the research that is being done in the field in Finland. The symposium is open to everyone interested in the topic.

## THE EVENT

The symposium will include presentations of late-breaking results and position papers from researchers who are active in this field. The topics covered in the presentations include:

- § Automatic emotion recognition
- § Emotional communication with technology
- § Emotions in games digital media
- § Neurocognition and neurophysiology of emotions
- § Emotion system design

The event is sponsored by SIGCHI Finland, Tampere Unit for Computer-Human Interaction (TAUCHI) and the Department of Computer Sciences at the University of Tampere. The Research Group of Emotions, Sociality, and Computing (ESC) at TAUCHI has the pleasure of hosting the event.

## REGISTRATION

The participation fee to the event is 20 € for members of SIGCHI Finland and 30 € for non-members. For non-members, the registration fee includes the membership to SIGCHI Finland for the rest of this year. The registration deadline is **May 21st**. A web form for registration and further information are available at [www.sigchi.fi/ehti08](http://www.sigchi.fi/ehti08).

**We are looking forward to meeting you at Tampere!**
